3 easy steps to get started!

Step 1: Choose your doctor – and change anytime

Getting you connected with a doctor who suits your individual needs is the first priority. Choose from a wide range of doctors. And, remember – you can change for any reason, at any time. Browse our online doctor profiles at kp.org/newmember and see how patients rate our doctors at kp.org/doctorreviews/nw. Call us at **1-888-491-1124** (TTY **711**), Monday through Friday, 7 a.m. to 8 p.m., and Saturday, 8 a.m. to 4:30 p.m., if you want help choosing a doctor.

Step 2: Register on kp.org

Next, let's get you plugged in to your online gateway to health – kp.org. Once your coverage begins, you can register on kp.org and start using the many convenient features. You can email your provider with nonurgent questions, schedule routine appointments, refill most prescriptions, and even schedule a video visit from anywhere you are.*

Registering is easy! Go to kp.org/newmember from a computer (not a mobile device) and follow the sign-on instructions.

Step 3: Get prescriptions

Quality care, when and where you need it

Emergency care

If you ever need emergency care, you're covered – anywhere, anytime.* You can get care at any Kaiser Permanente or non-Kaiser Permanente hospital emergency department.

Examples include: chest pain or pressure that may move to the arm, neck, back, shoulder, jaw, or wrist; severe stomach pain that comes on suddenly; severe shortness of breath; decrease in or loss of consciousness.

Urgent care

If you have urgent care needs, we're here for you. You can walk in or get care where you are by making a same-day video or telephone appointment. You can also call our advice nurses, who will assess your situation and help you decide what to do.

Examples include: minor injuries, including sprains and falls; minor backaches; flu symptoms; sore throats; coughs; earaches.

For a list of [urgent care locations](#), please see the [facilities map](#) on pages 12-13.

Specialty care

We have one of the largest multispecialty medical groups in the country, so when you need specialty care, your personal doctor will help coordinate your care with specialists. You don't need referrals for certain specialized departments, including obstetrics-gynecology, psychiatry, and drug dependency services.

24/7 nurse advice

If you're not sure what kind of care you need, you can call our advice nurses anytime at **1-800-813-2000** (TTY **711**). They'll help you figure out what type of care is best for your symptom or condition, help you decide where to go for care, and even schedule a routine appointment for you, if appropriate.

*If you reasonably believe you have an emergency medical condition, which is a medical or psychiatric condition that requires immediate medical attention to prevent serious jeopardy to your health, call 911 or go to the nearest emergency department. For the complete definition of an emergency medical condition, please refer to your *Evidence of Coverage*.

It's easy for you and your family to get the care you need when you need it. There are many Kaiser Permanente facilities in your area, offering convenient hours and a wide range of care and services.

Convenient care near you

With multiple locations to choose from, it's easy to find one near home or work. You can also see different doctors at different locations – whatever works best for you.

Great care, great results

From preventive screenings that help keep you healthy to quality care if you get sick, we've got you covered.

Preventive care to help keep you healthy

Preventive care is key to how we practice medicine at Kaiser Permanente. It can help you avoid some health issues and catch others before they become serious.

Your electronic health record plays a vital role – all your preventive care services are tracked in the system, which triggers automatic reminders when you're due for your next screening. We'll let you know when to come in, and you're free to focus on living your life.

Specialty care when you need it

Preventive care can help keep you healthy, but we're also here for you if you get sick or need specialty care.

From high-quality maternity care to treatment for cancer, heart problems, and more, you get skilled doctors, the latest technology, and evidence-based care – all combined to help you recover quickly.

Support for ongoing conditions

If you have a condition like diabetes or heart disease, you're automatically enrolled in a disease management program for personal coaching and support to help you get the care you need to continue living life to the fullest.

Similarly, if you need mental health and wellness services, we'll help you get care.

Quality care with you at the center

Our physician-led care teams work together to help keep you healthy by delivering high-quality, personalized care.

Great care from great doctors

Our doctors come from top medical schools, and many of them teach at world-renowned universities. View doctor profiles on kp.org to learn more.

No matter which personal doctor you choose, you'll be in highly skilled, experienced hands – and your health is their chief concern.

The Society of Thoracic Surgeons gave its highest rating to the Center for Heart and Vascular Care at Kaiser Permanente Sunnyside Medical Center, based on performance for adult heart bypass and valve replacement surgeries.¹

Choosing a doctor – your partner in health

We make it easy to find the doctor who's right for you. Select one doctor for your whole family or a different doctor for each family member. Having a good relationship is important because your primary care physician is your biggest health advocate. Your doctor will coordinate your care journey, and you'll work closely together to make decisions about your health.

Better care with a connected team

Your doctor, nurses, and other specialists all work together to help keep you healthy.

They're connected to each other, and to you, through your electronic health record. So they know important things about you and your health – like when you're due for a screening and what medications you're taking.

Our integrated system helps make sure nothing gets missed or forgotten, and you get personalized care.

Personalized care for all members

Care at Kaiser Permanente isn't one-size-fits-all. We believe your story, background, and values are as important as your health history.² To deliver care that's sensitive to all cultures, ethnicities, and lifestyles, we:

- Focus on hiring doctors and staff who speak more than one language
- Offer telephone interpretation services in more than 150 languages
- Provide 4 Salud en Español modules where members will interact with Spanish speakers from beginning to end – from reception to nurses to doctors

¹The Society of Thoracic Surgeons' comprehensive rating system allows for comparisons regarding the quality of cardiac surgery among hospitals across the country. Approximately [10%] of hospitals receive the "3 star" rating, which denotes the highest category of quality. Rating based on an analysis of national data covering the period from June 2010 through June 2015. <http://www.sts.org/quality-research-patient-safety/sts-public-reporting-online>.

²Through our culturally responsive care programs, we've improved health outcomes among diverse populations for conditions like high blood pressure, diabetes, and colon cancer. We improved blood pressure control in our black/African-American members, raised colon cancer screening rates in our Hispanic/Latino members, and improved blood sugar control (HbA1c levels under 9%) in our Hispanic/Latino and black/African-American members with diabetes. Self-reported race and ethnicity data are captured in Kaiser Permanente HealthConnect®, and HEDIS® measures are updated quarterly in the interregional CORE Datamart.
